                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | 16,829         |        |         |    |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                |        |         |    |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | 14,683         |        |         |    |

本表沈澱池ハ第一號乃至第三號濾過池ハ甲乙丙ノ各第一號乃至第六號ノ數ヲ平均セシモノナリ

細菌聚落數ハ水一立方「センチメートル」(〇,〇〇〇ミリ升)中ノ個數ナリ

上水検査ハ明治三十二年、三十三年、三十四年、三十五年ノ一、二、三月ハ内務省衛生試験所ニ委託セシモノニシテ三十五年四月以降ハ東京市衛生試験所ニテ施行シタルモノナリ液化トハ液化菌ノ爲メニ膠質平板培養壤ノ液化セラレタルモノナリ

表中ニハ内譯ヲ再掲セシモノナリ

全年ノ行試験回数ハ其年ノ合計ヲ記載シタルモ細菌聚落平均數ハ一ケ年ノ平均數ヲ掲ゲシモノナリ

明治三十五年度以來教員數ノ記載ナキハ本校教員之ヲ擔任セルガ故ナリ

## 第三 東京高等工業學校

## III.—THE TOKIO HIGHER TECHNICAL SCHOOL.

明治三十七年度 1904 (Fiscal Year.)

該校ノ目的ハ工業ニ従事スルモノ、爲メニ必要ナル學理及技術ヲ教授スルニ在リテ知識ト技能トノ進歩ヲ期シ少クモ課業ノ三分ノ一ハ各學科所屬ノ工場ニ於テ實技ヲ練習セシメ實地ニ明カナル技術者ヲ養成センコトヲ期セリ其學科ハ染織科、窯業科、應用化學科、機械科、電氣科、工業圖案科、建築科(該科ハ當分實施セズ)ノ七科ニシテ更ニ染織科ヲ分チテ色染分科、機械分科トシ電氣科ヲ分チテ電氣機械分科及電氣化學分科トセリ其修業年限ハ各三箇年ナリ而シテ各學科專門 屬スル學科目ノ外倫理、數學、物理學、化學、應用化學、應用機械學、圖畫、機械製圖、物理學實驗、化學分析、工業經濟、工業衛生、工業簿記、工場建築、英語、體操ノ諸學科ハ各學科ノ生徒ニ共通シテ其輕重難易ト學力ノ進度トヲ計リ之ヲ三學年間ニ於テ長短便宜ノ時間ニ配當シ教授スルモノトス

別ニ工業ニ従事スル者又ハ工業學校卒業者ニシテ各科ノ學科目中ニ就キ特ニ修業セント欲スル者ハ該校ニ入學セシメ、該校卒業者ニシテ尙其學業ヲ研究セント欲スル者ハ專攻生トシテ在學セシメ該校生徒ノ學籍ニ在ラザル者ニシテ各科專門學科目ノ講義ヲ傍聽セント欲スル者ハ聽講生トシテ之ヲ許可スルコトアリ又該校ニ附屬職工徒弟學校、附設工業教員養成所アリ同養成所ニハ附屬工業補習學校アリ
